

# New for 2025-2026

Quaker has partnered with FEDlogic to provide employees and their families a free resource to assist with better understanding federal and state benefits. See page 9 for more details on FEDlogic.

For 2025, we are offering a voluntary pet wellness plan through Wagmo. Check out the three different plan options you can choose between for your cat or dog on page 19.

We have enhanced our Hartford Hospital plan by adding an option to get coverage for outpatient surgery. You will now see three hospital options: \$1000, \$2000 and \$2000 Plus. For more information, please find the plan details in your open enrollment packet.

We have redesigned our Window to Wellness program to be easier to understand. We have also updated the portal to be easier to navigate. For more information, please see the small yellow envelope in your open enrollment packet. Lastly, we have enhanced the buy-up dental plan to have a higher annual maximum for the upcoming plan year.

The annual maximum for the dental plan will be increasing from \$1,000 to \$2,000 beginning February 1, 2025. However, with the increase to the annual maximums, the buy-up plan will have a \$50/\$150 deductible moving forward.
